Adam Dulcamara *MBCS*

PROFESSIONAL PROFILE

BSc (Hons) Web Design, Development & Analytics graduate with skills in web development, responsive and accessible web design, UX design and research, data analytics, and AI fundamentals. Proficient in HTML, CSS, JavaScript, SQL, Python, and core artificial intelligence concepts, including machine learning principles, prompt engineering, and the practical application of AI tools. Experienced in transforming research and real-world data into engaging, user-centred web experiences through creative, functional, and accessible web design. Familiar with cloud computing, version control, and collaborating effectively in both team-based and remote working environments.

EDUCATION

BSc (Hons) Web Design, Development & Analytics
Edge Hill University | 2023 – 2026 | 2.1 (Upper Second-Class Honours)

OCR Level 2 Award in IT User Skills (ITQ)
St. Helens College | 2019 – 2020

WORK EXPERIENCE

Warehouse Operative

Coop | Lea Green, St. Helens | February 2011 – Present

Consistently achieved productivity and performance targets within a fast-paced distribution environment while demonstrating reliability, teamwork and attention to detail. Developed strong organisational and time-management skills through balancing long-term employment alongside full-time university study and adapting to changing operational demands. Maintained a strong attendance record and commitment to high standards of performance.
